Tina,

Here is the fingerprint information we talked about – the TEF factors are several slides into the first attachment.

Thanks,

Gary Miller

Subject: Dioxins

Gary,

I am working on my poster for chemical fingerprinting and want to use dioxin as my example. My thought was to have 2 stable and 2 unstable forms as examples. So I was wondering if you could tell me the 2 types of dioxins that were found at or near the SJRWP site (in the pits, soil, or water wells).

Thanks for the help.

Tina
